VULCAN

The New Ford Chassis

REAR AXLE

Three-quarter floating. Car weight carried on flexible roller bearings on outside of axle housing. Axle shafts have only one function—to turn the wheels. They carry no weight. Thus wear and strain is minimized. Inside end of axle supported by differential case which is carried in tapered roller bearings inside the axle housing. Drive is by spiral bevel gear and pinion permanently adjusted.

Rear axle is three-quarter floating type which relieves the axles of all weight. Weight is carried by flexible spiral roller bearings running on the outside end of the axle housing. Tapered roller bearings are placed on the differential casing to take the axle thrust.

Crown gear and pinion are steel forgings of heavy bevel spiral gear type, permanently adjusted and noiseless.

A new design of driving pinion is employed which is made with an extension for the key-way, eliminating the strain in the section carrying the teeth.

The rear axle is particularly easy to service. Disconnecting the left rear spring shackle, brake rods, radius rod and left housing from centre at differential housing, will permit the complete axle and differential assembly to be removed for servicing without having to remove complete end from chassis.

SPRINGS

Two transverse semi-elliptic springs provide maximum axle movement with minimum unsprung weight. The springs act as shock absorbers only and do not absorb driving and stopping strains.

The rear transverse spring permits the use of full torque tube drive ensuring perfect rear end alignment.

The outstanding feature of the spring system is that shackles being close to the axle extremities greatly reduce the strain thrown into the axle, permitting lighter axles and therefore, less unsprung weight. Unsprung weight is that portion of the car's weight which is not carried on the springs, in other words, wheels, hubs, radius rods, axles and all parts below the spring shackles. These are only protected from road shocks by the tires, and a minimum of unsprung weight ensures increased tire mileage.

Transverse springs permit the use of full torque tube drive and the employment of radius rods to ensure front axle being held in proper alignment. The front axle being held rigidly in alignment, the danger of uneven tension upon front wheel brake rods and uneven operation of brakes, is eliminated.

VULCAN FORD DEALERS

The Objects of Service Clubs

In practically all towns and communities there are now Service Clubs of various kinds, which, while perhaps devoting a great part of their energies to specific lines of endeavor, nevertheless have one outstanding predominating characteristic common to all. That is the establishing between man and man, whether competitor or not, whether rich or poor, whether of high or low degree in the community, a spirit of co-operation, good-will and mutual helpfulness. It is becoming daily more evident that much more can be accomplished, and much better conditions established, if men will work in harmony; if they will help and support each other; if they will so conduct their affairs as to be reasonably fair to all with whom they may have business dealings. The principle can best be exemplified; so far as business and professional men are concerned, by extending to each other in any community such business patronage as we may have to hand out, rather than to extend such favors to those from distant towns or cities. Give to your home business houses all the patronage you possibly can.

LOCAL NEWS ITEMS

There will be a card party at the Mayview school on January 27th.

Hotel Royal, near C. P. R. station, on main street, Vulcan, Rates \$50., 75c., \$1.

On February 23rd, there will be a dance at the Red Cross School, with Rushfield and Henderson music.

Pastor W. E. Jones, of Milo, is now serving the Baptist Church at Reid Hill in services on Sunday mornings, and it is his desire to meet all the members and adherents.

The annual meeting and social of the United Church, Vulcan, will be held on Friday evening, January 27, commencing at eight o'clock. A hearty invitation is extended to the congregation and their friends to attend. Refreshments will be served at the close of the meeting. Admission free.

The announcement by McIntyre & Co. of the Town City Power Farming School, to be held in Vulcan on January 30, will at once create a community interest. Everything is free and everybody invited, and besides, and without cost, all who attend will be given a chance in a drawing for a five-gallon can of lubricating oil.

Members of the local Tuxis Square, an organization of real live lads, are going to vary their activities and sport by breaking into the curling game, and in a series of contests will be directed in their ins and outs by past masters from the regular curling club, namely, Messrs. Maber, McMillan, Howes, Butchart, Barker and Brunton.

The annual meeting of Redlandview Women's Institute was recently held at the home of Mrs. Willard Snow, and there was a splendid attendance of the members. The business of chief interest was the election of officers, which resulted as follows: President, Mrs. J. V. Henderson; Vice President, Mrs. C. Hale; Secretary, Mrs. R. Mitchell; Directors, Mrs. H. Moss, Mrs. J. Richardson, Mrs. W. Snow. Redlandview branch has made a splendid contribution to the community activities, maintaining a valuable service in the line of their operations, and start another year under auspicious circumstances.

St. Aldhelm's Church was full to the doors on Thursday night, when the Bishop of Calgary was present to administer the rite of confirmation. Without choosing any particular text for his address, His Lordship spoke to the candidates on some aspects of the first miracle performed by Jesus, that of turning the water into wine at Cana in Galilee, stressing the facts that the implements used in this miracle were ordinary, so we, too, all being ordinary people, may be chosen by God as his instruments in furthering His kingdom upon earth. Rev. D. F. Kemp, after taking the first part of the service, presented to His Lordship the following candidates: Jean Robinson, Dorothy Martin, Gertrude Maatin, Margaret Herdman, Carlton Jones, Walter Ottewill, Elmer Ross, Clarence Martin.

VULCAN, ALBERTA

LOCAL NEWS ITEMS

Born, in Vulcan, on January 12, 1928, to Mr. and Mrs. G. W. McAllister, of Vulcan, a son.

Conductor Ober and Bandsmen Dorch and Dawson, of the Vulcan band, were in High River over the week end, assisting in a concert with the Elks' band. The event was a pleasurable affair and a musical success.

A hotel manager, going along a corridor, saw a kneeling bootblack cleaning a pair of shoes outside a bedroom door. "Haven't I told you never to clean shoes in the corridor, but to take them downstairs?" "Yes sir, but the man in this room is a Scotchman and he is hanging onto the shoe-laces."

The inadequacy of the depot accommodation at Vulcan is particularly demonstrated when the populace decides to make a trip with the hockey team, such as on the occasion of the recent visit to High River. There is the report that the railway officials recognize the necessity of improvement at this point and that same will be undertaken in the early spring.

Sixty to seventy-five citizens of Vulcan went in a reciprocal spirit to High River on Friday night to support our hockey team and repay a visit made by our neighbors to Vulcan on the first day of the year. Traveling was more difficult, and the stay so long was not possible, but sufficient were the courtesies extended to establish the fact that, though there is no effort spared in the game battles, there is a friendliness which makes these inter-town visitations a real pleasure. Vulcan fully appreciated the splendid reception accorded to Mr. MacGregor when he made his appearance on the ice, and who is this season playing as hard for Vulcan as he did in the past two years for High River. The cheering and applause with which he was greeted is a fine compliment and evidence of his popularity. The several features of the two games and the visits prompt the suggestion that home-and-home exhibition games between these teams be now arranged.

The ceremonials of installation was a feature of the regular meeting of Clover Leaf Rebekah Lodge, held on the night of January 16th. The event was conducted by Sister Gow, District Deputy of District No. 15, and following are the officers: Junior Past Noble Grand, Sis. Uretta McIver; Noble Grand, Sis. Violet Collier; Rec. Secretary, Sis. Mary Hunt; Fin. Secretary, Bro. Wm. Smith; Treasurer, Sis. Ella Hoge; Warden, Sis. Sheffield; Conductor, Sis. Ritchie; Chaplain, Sis. Dadds; R.S.N.G., Sis. Clark; L.S.N.G., Sis. Fair; R.S.V.G., Sis. Meyers; L.S.V.G., Sis. Sherman; Inside Guard, Sis. Roe; Outside Guard, Sis. McPherson; Degree Master, Bro. Wm. Bowie. Sisters McIver and Hunt were elected to represent Clover Leaf Lodge at the Rebekah Assembly, to be held at Edmonton in February. An interesting and instructive address was given by the District Deputy, Sis. Gow. Dainty lunch was served by Sis. Clark and Bro. and Sis. Doane.

The first meeting in the new year of the Good Deeds Women's Institute was held at the home of Mrs. J. Phillips, on January 12th, and was opened by saluting the flag, reading of the creed, and singing "O Canada." The election of officers and selection of committees followed regular business, and resulted as follows: President, Mrs. Charles Smith; Vice Presidents, Mrs. S. B. Brown and Mrs. W. Irvine; Secretary, Mrs. Bob Irvine; Treasurer, Mrs. Harry Smith; Auditors, Mrs. E. Beestlestone, Mrs. Bert Andrews; Press Herald, Mrs. Bert Andrews; Directors, Mrs. A. Larson, Mrs. J. Deans, Mrs. J. Lucas. Mrs. C. Smith was elected as delegate to attend the constituency convention at Lethbridge in March. The gift of \$500, together with a letter wishing Good Deeds a prosperous year, was received from Mrs. Jessie Sawley. Prizes for the best attendance during 1927 were awarded to Mrs. C. Smith, Mrs. Pratt and Mrs. J. Lucas. Notice was received of the Vulcan rest room committee giving a program and tea on January 21st, to which all are invited. Dainty lunch was served by the hostess. Next meeting of the institute will be held on February 9th at the home of Mrs. J. Gothard.

LOCAL NEWS ITEMS

Warning! Do not take cold. Keep warm this winter at the Hotel Royal.

The distinction of being the first in Vulcan to purchase an 1928 auto license plate goes to Mr. Jack Marshall.

Monday night was perhaps the best night at the rink thus far this winter. The temperature was mild, the ice excellent, the band was playing, and the number of skaters was the greatest of the season. The patronage of the elder folk has not been as good as in seasons past, but the youth are having a great time on the blades.

Mr. Len Davis, the well known orchestra man, in a little message to The Advocate, extends an invitation to Vulcan people who may at any time be in High River to call on him at the new theatre in that town and they will be accorded the privilege of an inspection trip through this splendid house.

Mr. and Mrs. W. A. Rolston announce the engagement of their second daughter Edith, to Mr. Lyman C. Ratcliff, son of Mr. and Mrs. D. Ratcliff of Bonner's Ferry, Idaho, the marriage to take place January 25. The foregoing, from a recent issue of The Calgary Herald, is of much local interest, for the principals in the announced event were not so long ago residents of Vulcan and were among the best known and esteemed of our young people.

Vulcan has long had the record of sending the most rinks to the bonspiel at Calgary, and the ladies usually make their proportional contribution. This year there will be two rinks of ladies the personnel of which is as follows, given in the order of play, the skips being first named in each group: Mrs. Beardsley, Mrs. Flood and Mrs. Ferguson; Mrs. Jack Marshall, Mrs. Lebeau, Mrs. James Marshall and Mrs. Collier. The ladies have a rather exceptional record to maintain, and if good luck wishes count they will bring back the usual number of cups and prizes.

Vulcan will be represented at the Calgary bonspiel by six rinks, four of men and two of ladies. These are they who go to the city to play, each quartette named in the order, the skip in each case being first named: Tommy Lebeau, Fred Anderson, Jack Marshall and Gus Spaeth; Al. Flood, Bob Dadds, Geo. Armstrong and Jim Marshall; Jack Wolfe, George Whicher, Ernest King and Glaze Dickinson; Dyce Allan, Charlie Jones, Rus Robson and Billy Hill. In the years that have gone many have been the trophies and prizes that have come to Vulcan from Calgary, and it is a good guess that '28 will not prove an exception. By the time that this item is read all will be well into the several competitions.

Vulcan representatives in the new "Outlaw" hockey league, composed of teams at Brant, Champion, Carman and Vulcan, on Tuesday night, at the Vulcan arena, stepped out and won their first league fixture. All the teams in this league have had a go with each other in exhibition games previous to the league opening. Champion was the visiting team on this occasion, and but for the soft ice the game would certainly have been fast. The play was just about a fifty-fifty break, with the advantages of two goals in favor of Vulcan, scored by George Monkman in the first and third periods. The slow ice increased the labor, but there was no let-up in the effort on either side, and the fair audience witnessed with interest and satisfaction the performance of the intermediate of today who will be the seniors of tomorrow. The score was two to nil. The line-up: Goal, Eddie Love; defence, Bill Kiser and Charlie Kiser; forwards, Harold McDonald, Bud Flood and George Monkman; substitutes, Fred Vankivver, George Seaman and John Jackson. The team has a league engagement at Carman on this Friday.

The first meeting in the new year of the Good Deeds Women's Institute was held at the home of Mrs. J. Phillips, on January 12th, and was opened by saluting the flag, reading of the creed, and singing "O Canada." The election of officers and selection of committees followed regular business, and resulted as follows: President, Mrs. Charles Smith; Vice Presidents, Mrs. S. B. Brown and Mrs. W. Irvine; Secretary, Mrs. Bob Irvine; Treasurer, Mrs. Harry Smith; Auditors, Mrs. E. Beestlestone, Mrs. Bert Andrews; Press Herald, Mrs. Bert Andrews; Directors, Mrs. A. Larson, Mrs. J. Deans, Mrs. J. Lucas. Mrs. C. Smith was elected as delegate to attend the constituency convention at Lethbridge in March. The gift of \$500, together with a letter wishing Good Deeds a prosperous year, was received from Mrs. Jessie Sawley. Prizes for the best attendance during 1927 were awarded to Mrs. C. Smith, Mrs. Pratt and Mrs. J. Lucas. Notice was received of the Vulcan rest room committee giving a program and tea on January 21st, to which all are invited. Dainty lunch was served by the hostess. Next meeting of the institute will be held on February 9th at the home of Mrs. J. Gothard.

LOCAL NEWS ITEMS

Born, at the Rinehart hospital, in Vulcan, on January 17th, 1928, to Mr. and Mrs. Tommy Fenton, a daughter.

St. Aldhelm's Church services, Sunday, January 22nd. Matins 11 a.m., Sunday school 12:15 p.m., evensong 7.30.

Mr. John F. Miller, eyesight specialist, of 404 Underwood Block, Calgary, will be at Jones' drug store, in Vulcan, on Saturday, January 28th, for the purpose of correcting your and your children's eyes. Do not miss this opportunity.

The Advocate has received from Mr. James Graham, who is visiting down in Iowa, a copy of the paper published in Lake City. It contains a record of the arrival of Mr. Graham from Alberta, Canada, to spend a month or two with his parents. The news columns would suggest that life down there is somewhat as it is here, for they have bridge-games dances, contests for old-time fiddlers, and the shop-keepers are running January clearance sales. One thing of particular interest in the paper was a photo of a splendid hospital which they have in Lake City. The paper has excellent advertising patronage.

Tuesday night developed into a presentation night with the local lodge of Rebekahs. Following a specially interesting session, Mrs. McIver, the retiring chief officer, was presented with a Past Noble Grand's jewel, the presentation being made by District Deputy Gow. In turn, Mrs. McIver, on behalf of Clover Leaf lodge, made the gift of a console set to Mrs. H. Marcellus, and a set of stainless steel dinner knives to Mrs. Art Cummings. The complimentary expressions accompanying the gifts received kindly responses from the recipients. Mrs. Marcellus and Mrs. Cummings will shortly leave Vulcan to reside elsewhere, and the regret expressed as to the loss of these active and popular members is shared by a citizenry that has appreciated their worth.

The Calgary Herald is making a fine contribution in the promotion of Alberta participating in the Dominion oratory contest, which is open to all pupils of all schools doing work in grades nine, ten, eleven and twelve. The Advocate is pleased to add that support to the idea which it may be in a position to give. Vulcan and district pupils have been encouraged in oratory through the medium of the school fair, and the addresses made by the boys and girls at the recent school banquet, would suggest that the territory should furnish a number of contestants at least in the district preliminary elimination trials. "Canada's Future" is the appropriate subject for ten-minute orations in the preliminary contests. Can we not have representation in this splendid event. The winner in the Dominion will get a free trip to Europe.

The second meeting in a league contest of the High River and Vulcan hockey teams, which took place on Friday night last, gave High River its largest assembly of fans thus far this season, and the game returned real value for the admissions paid. It was calculated that there was not much between the teams, and the contest confirmed the fact. Repeating the feat of the first encounter, Vulcan scored the first goal. High River came up even before the end of the first period. In the second frame the home team went a head, but the scoring alternated and they were three each when they went for the final twenty. The game had been a dingy combat of the kind that excites and delights the fans, and the opposing squads had put into it just about all they were capable of contributing, and the visiting spectators judged that perhaps there was a slight edge in favor of Vulcan. The hope that they would win was quickly dissipated when High River snapped in a couple of opportunities that resulted in goals, creating the count of five to three, which remained as the final tally. The home team, with the lead that they had, pursued defensive tactics, while Vulcan went their limit in an attack that had in it a somewhat busy session for the home goalie. It is not taking anything from High River to say that Vulcan has not yet this season had the advantage of the least of luck, a factor which sometimes contributes even to the extent of turning a loss into a win, and at least three games have gone against them by the margin of one. However, the boys have been game and sporty even in their adversity giving credit to the victors in every instance, and this quality readily squares them with the fans who contribute to their support. Vulcan has at least made a real hockey match of every game in which they have thus far participated, and this is an appreciative contribution to sport in the territory in which they play. The personnel of the team representing Vulcan against the league champions this year, last year and the year before, is as follows: Goal, Dyson; defence, McKinnon and Leveston; forwards, Hays, MacGregor, and McKinnon; subs, Dorsey, and Magee.

LOCAL NEWS ITEMS

Miss Queenie Daines spent the week end with friends in Calgary.

Owing to sickness, will let office, eleven rooms and summer kitchen, to 31st December or longer. Rent cheap or than private house.—Hotel Royal.

The W. A. of St. Aldhelm's Church announce a "Valentine Tea," to be held at home of Mrs. William Hill, on February 14th, to which everybody will be welcome.

Mr. K. R. McLean, sight specialist, 210-212 Herald Building, Calgary, wishes to announce that he will visit Vulcan, at King's drug store, Saturday, January 28th.

Invitations have been issued for a social function under local Masonic auspices, to be held on the night of January 24th. Those who have received a card are anticipating an enjoyable event.

The Alberta 1928 license plates are a dark blue ground with white figures. It is required by law that all cars in operation bear a plate of the year date, but usually a little grace is given, but it will not be wise to operate a car after the end of this month without a 1928 plate.

The new date of the Foothills bonspiel, to be held at Claresholm, and which had to be postponed on account of the extended chinook, has been fixed for Monday, January 30th. Members of the five rinks that had planned to go from Vulcan were disappointed, but in all probability they will make it on the new date.

It is required by the law that a tax be paid on every dog owned in Vulcan, and it is the rule also that every dog wear a town tag. Owners are advised that they must comply or they may anticipate a call from the cop.

Vulcan will appreciate the honor which the town will share with a citizen in the election of Mrs. A. T. Martin as Constituency Convener of the Women's Institute. This is a responsible position in an institution which has many branches in the district, all of them contributing in such a splendid manner to community enterprise as to constantly command commendation.

There was a reverse in the order of things in the hockey game between Okotoks and Vulcan, on Tuesday night at Okotoks. In two or three of the games in which Vulcan has participated and lost, they scored first, finally to be overtaken by defeat. This time it was different, for at one stage of the play they were down three to nil, and indeed when they went into the last period the score was three-two against them, but a rally which they put over in this session secured them four goals and a victory, the final count being six to four. It was a finish that had been hoped for in other games, and all but accomplished, and may be that luck has turned in to give the necessary touch to the ability which the team really possesses. As a hockey match it was not the best, the size of the rink and slightly soft ice making difficult a real exhibition, but there was considerable to it as a contest.

Plans are rapidly rounding into final shape for Vulcan's big Community Day, Tuesday, January 31st, when Captain S. N. Dancy will be the honored guest and speaker of the day. While the programme is staged under the auspices of the Canadian Legion, yet, because of its community wide character, all local organizations are participating. Captain Dancy is proving a veritable sensation on his speaking tour of Alberta. Everywhere he is greeted by record-breaking audiences and an almost unparalleled enthusiasm. His ability as a speaker is rated one of the most brilliant and fascinating on the platform, and the character of his message, "Canadianization and Community Building," combine to give him this popularity. A general appeal is being sent out to the citizens of Vulcan district to unite in giving to this distinguished visitor on January 31st a welcome fully in keeping with the cause and of a character to measure up to the high standard set by sister communities of Alberta. Captain Dancy will be given a very busy day in Vulcan, but the schedule of meetings has been so planned so as to reach into every recess of this district. In the morning he will talk to the High School and upper grade pupils; at noon he will address a Board of Trade luncheon, and to this luncheon the farmers of the district are especially invited. In the afternoon the Women's Institute will have charge of a meeting for women of the district. The big community rally in the Opera House at 8 o'clock in the evening will climax the day's programme. A splendid musical programme has been arranged to include band, orchestra and vocal numbers. There will be an open forum question period following the address of Captain Dancy and the address will be a general survey of present day conditions as they affect the community, the province, the nation, the empire, and the world. The whole program is of a community nature, and the old slogan again holds good, "Let's put Vulcan over the top."

Protection from Fire and Theft

The science and engineering skill in vault construction that in 60 years of experience have been found adequate to protect the Bank's own cash and valuables are placed at the service of its customers.

In these vaults of the Canadian Bank of Commerce are placed safety deposit boxes which are rented to the public.

The rental rates for these boxes are low.

VULCAN ADVOCATE

VULCAN, ALBERTA

VALUE OF WHOLESOME SPORT

The value of a good senior hockey team to a town, cannot be estimated in gate receipts. Even the fact that it stimulates a healthy local pride, is a secondary matter. The greatest single influence which it has, is upon the activities of the youth of the town. Youth is imitative, and its life being so largely physical, it worships physical accomplishment, which is good. The basis of adult health, lies in the early growing years of the child, and it is imperative for a proper foundation, that children have engrossing out-door interests. It is an indisputable fact that a town which does not boast an adult population, actively interested in the development of sport, is apt to find itself with a youthful element disorganized and either listless or lawless. Hockey is a game which appeals to all ages. Its fascination is irresistible. It calls for long hours of out-of-doors with the highest possible expenditure of energy and dexterity. But without the example and stimulus of seniors, successfully playing the same game, the juvenile impulses would be likely to wane. In our town, on every available sheet of ice and in the rink, may be seen children of all ages, playing hockey. Not in aimless, helter skelter fashion, but definitely. They see good, clean hockey played by the seniors. Their keen eyes grasp fundamental elements of plays and combinations. They step out next day and try fumblingly but with set purpose to get the same results.

WHAT PRICE FASHION

When lovely woman stoops to folly it is to put on her high-heeled shoes. Every other change in woman's dress has been an improvement. Low-necked waists have tended to robust health. Short skirts have tended to freedom of leg (limbs) movement and sanitation. The abandonment of bustles, of tight corsets, of long hair (native or acquired), of long skirts, trailing in the dust or mud; all this is reform, spelling emancipation from tyrant fashion. But those high-heeled shoes! O, woman, lovely woman, we beseech thee in the name of the Lord, stoop once more—not to folly but to wisdom. Remove that shaky, spiky, spindly, underpinning, or by heavens!—But, what's the use talking. You'll do as you darn please anyway. You always were a wilful, wayward wench.

You can't choose your ancestors, but that's fair enough. They probably wouldn't have chosen you.

MAYORS OF CITIES

In Canada, as in the United States, the government of large cities has fallen into the hands of fourth-rate politicians. In Montreal, Mederic Martin, a joke, can be elected any time he wants to run. Although he was a Liberal member of parliament at the time, the Liberal Legislature of Quebec some years ago, had to curb his powers by a commission. In Toronto for seven years, another joke, Tommy Church, was Mayor of the city. For the past three years a dull stupid person was Mayor and he is succeeded now by a man who created disorderly scenes in the Council by using abusive language. The better class of citizen will not run, and a vast volume of votes remains unpolled. Until these conditions are changed, there will be no improvement in the character and calibre of the men elected.

THE WAGES OF SIN

The bandit who flourished a gun and orders defenceless merchants or clerks to "shell out" is at heart (if any) a coward. In most cases he will take to his heels if he is resisted. One brave fellow with a gun scampered off because a woman screamed. Another ran away because the merchant whom he held up pelted him with cigar boxes. Many bandits take dope to screw up their courage, and if they shoot, they shoot wildly. They take dope because they know they are cowards, or are given it because their leader knows they lack courage. It is a virtue to lack the courage to commit a crime. The bandit's failing lies in his lack of that sense and intelligence which teaches the lesson that the only sure dividends paid by banditry are a haunting fear of being caught, ultimate capture, confinement and perhaps the scaffold. No bandit has ever escaped all of these.

THAT HUMBLE LOOK

When you observe a crumpled, subdued look on a woman's face nowadays, don't buzz round with the story that you just know her husband is "treating her rough." It isn't her husband—his day is over. The chance is that she has a fifteen year old daughter, who has just been giving her blazes because she wears her skirts too long, or isn't using just the right shade of powder. The cowed look so prevalent amongst forty year old women is almost invariably produced by a daughter, who spares no pains in telling her mother what's what. They are our new aristocracy, these daughters, quite worthy people we have heard. But stern and strict, and hide-bound in dealing with their parents.

PAINELESS BULL-FIGHTING

A Mexican purports to show people that bull-fighting can be painless. Nonsense! Think of all the pain suffered by a lot of good people in the United States merely because Lindbergh attended a bull-fight.

The homes are said to be failing in their greatest duty, but at least they keep places open where the children can come home to sleep.

There were 232 murders in eight months in Mayor Thompson's metropolis including that of the King's English.

TACT

John Erskine has this to say on tact: "If you have tact, you are in touch with your world, or you have the virtue which enables you to behave wisely when others are in touch with you. A rugged, tactless honesty flourishes on frontiers, in unsettled countries. To many of us tact seems not yet desirable, so much are we in spirit still the children of an unsettled country. We scorn the light touch and depend on the etiquette of battle. As our world fills up, and intercourse multiplies, we shall be forced to go easy with each other. It is a price which must be paid for survival. It is a question whether rough honesty is ever really honest. To know the truth we need more imagination than most of us care to exercise. In roughness and bluntness, there may be much laziness and there is certainly little imagination. It is illuminating that when we are proudest of telling the truth it is usually the bitter truth and we have told it to some one whom at the moment we didn't like. Sweet are the uses of frankness. In the practice of tact, there are moments when we ought to remember, and others when we must forget a little; moments when a speech is better than silence, or when silence is imperative, moments when it is wise to seem blind. The instincts of the heart are not a complete guide; tact is achieved through an effort of our whole being. Tact can be learned and thought out, and the man who hasn't any must accept blame.

UNUSUAL WINTER WEATHER

We are having a winter of unwonted severity here. If there were enough sleighs to make use of the snow it would not be so bad, but we are used to winters with cars able to run almost every day, and sleighs are uncommon. However, the backbone is broken now and we have every reason to hope that, after this, traffic by motor will be uninterrupted. It will do us good to have such vigorous weather if it puts us in the mood to sympathize fully with our brethren in Saskatchewan and Manitoba. Despite recent weather, this continues to be known as sunny southern Alberta. And it shall remain so. The sun will kiss Alberta all the more tenderly because of the recent coldness. It is a case of make-up.

INTOLERANCE

The American Anti Bible Society plans to spend \$100,000 a year, in a campaign to stamp out confidence in the Bible. One effort is to have Gideon Bibles taken out of all hotels. Propaganda literature is to be sent to every hotel-keeper. However there is no alarm in the camp of the believers. The New York Bible Society says "The more the matter is discussed, the more the Bible will be read. If a Gideon Bible is destroyed, we can replace it. During our 111 years of existence, we have distributed 181,928,960 volumes of scripture. The virulence of the attack against the Bible will be the undoing of the Society."

ARE CHARACTER BUILDERS

The more pride that a community takes in its schools and the work being carried on therein the better will be the community. They are more than walls of brick and rooms of slate, they are character builders and are a mirror of community standards.—Milverton Sun.

The owners of the New York Giants have traded Hornsby to Boston for two obscure players, and there is a good deal of kicking about it. Much dissatisfaction could be avoided by listing ball players on some exchange where trading would be subject to competition.

Sir Arthur Conan Doyle's "psychic" museum was destroyed by the London floods, but the more valuable of the exhibits, some of which dated back to the early days of spiritualism, were saved.

Is it not possible that a time may come when Montreal will be better known as Mile 2894 from the Hudson Bay Railway.—Winnipeg Free Press.

A scientist says that children can spell better than their fathers. That being the case, why don't they?

THE GOLDEN RULE

In all ages men have sought and found the Pearl of Great Price, the truth by which men live, and the supreme Teachers have proclaimed it in simple words. Mirza Ahmad Sohrab, a Persian teacher, has prepared a summary of this Golden Rule as expressed in the world religions:

Christ: "Whatsoever ye would that men should do to you, do ye even so to them."

Hindu: "The true rule is to do by the things of others as you do your own."

Buddha: "One should seek for others the happiness one desires for one's self."

Parses: "Do as you would be done by."

Confucius: "What you would not wish done to yourself do not to others."

Mahomet: "Let none of you treat a brother in a way he himself would dislike to be treated."

Jewish: "Whatever you do not wish your neighbor to do to you do not unto him."

This is the season when no man should be criticized for the necktie he wears.

CANADIAN COAL

Alberta Coal Should be Placed on
the Ontario Markets

That the City Council of Edmonton Alberta, made no error when it gave support to the campaign favouring prompt intervention by the Federal Government in adjusting railway freight rates for coal, so as to permit the carrying of Canadian coal and its sale in Canada at prices favourable to the consumer, is revealed by the response to its appeal for co-operation by other cities and towns. There is every evidence that the matter of coal rates is regarded as a national question in the fact that replies have come in from practically every province, from ocean to ocean. To date, twenty-two of the most important cities have unanimously adopted resolutions which call upon the Federal Government for immediate action in dealing with the question. The capital city of the Dominion and the seat of the Federal Parliament stands out noticeably in the list of supporters; the province of Quebec is represented by the City of Montreal and other names. The cities of the maritime provinces are there along with the names of their inland sisters, and the action taken by these cities shows that interest in the coal question is not limited by provincial boundaries or by the presence of this natural resource in any particular district. All the cities express the conviction that it is a matter which the government can deal with quickly and effectually, as investigation has shown there were certain miscalculations in the majority report of the Board of Railway Commissioners, which upon correction will allow of a lowering of the present railway rates without loss to the railways, and obviously without the need of a government subsidy.

In the course of an address before the Board of Trade at Vancouver, upon the great services rendered Canada by the late Sir William Van Horne, founder of the City of Vancouver and President of the Canadian Pacific Railway, C. A. Cotterell, general superintendent for the railway's British Columbia district, said, "The Canadian Pacific Railway is the largest employer, the largest taxpayer and the largest purchaser in the Province of British Columbia; spending last year within the province \$20,750,000 in stores and supplies, taxes, wages and so forth. The tonnage of the port was valued last year at \$266,000,000 in imports and \$268,000,000 in exports."

A rancher living near High River can't understand it. He can't figure out how bulls on Wall Street feed on shorts that belong to bears.

LOOK AT THE ADS.

It's mighty good business for the buyer to read the ads. The merchants who advertise in this paper have a message for you or they would not pay their money to buy space for it. That message means money to you, if you will take advantage of it. And the surest way to prove to the merchant that you appreciate his bargains is to tell him that you saw them advertised in the Advocate. Such a message to him works wonders, for next week he will find other things to advertise that will be to the advantage of both buyer and seller. We know many people who do not come to town or go shopping, until they have received the Advocate and gone over it carefully with a pencil for marketing purposes. They are thrifty buyers and know values. We recommend the same method to all, as economy to all concerned, for business is the life of trade and advertising brings it, and buying what you want with prices and quality to satisfy is the aim of every purchaser. The pages of the Advocate bring these two factors together in a business way. The motto of the progressive business house is: Advertise and Work; then Work and Advertise. The work of the thrifty buyer these days is "Read the ads, and save the difference."

There have been many indications of an appreciation of the attractions Western Canada offers in the cattle industry at the present time. Buyers from the United States endeavoring to pick up Canadian animals for shipment have been numerous. Many ranches, some of them outstanding in the area for their size, have changed hands in the past summer, while many smaller cattle enterprises have been launched in the territory. There is universal agreement that the time is propitious for embarking on the cattle business, and the future will be decidedly profitable for those coming to engage in the pursuit.

Cattle in Canada in 1926 numbered 9,160,150 as compared with 9,307,298 in the previous year. In 1916 there were only 6,598,707 head in Canada, but they rapidly increased during the war years, the figure standing at over 10,000,000 in 1918 and 1919. In 1921, when the United States tariff made itself felt, there were 10,206,205 head, so that the situation has made a fairly rapid recovery. Sales at Canadian stockyards during the first nine months of 1927 totalled 477,679 as compared with 556,901 in the previous corresponding period, and animals billed through totalled 70,277 as against 199,553 in 1926.

One possible indirect effect of the troublesome times through which the cattle industry has been the improvement and facilitating of marketing conditions in Western Canada. Each of the three prairie provinces formed a livestock pool which has for some time been functioning very efficiently. Recently a further improvement was effected when arrangements were concluded for the marketing of all the livestock in the three western provinces by a central, co-ordinating agency known as the Central Livestock Co-operative, Limited, which is to have control and direction of the central marketing policy. This is the first concerted endeavor to bring about organized marketing of livestock through a single channel and is expected to result in material profits to the farmers of Western Canada.

CATTLE INDUSTRY

Interesting Article Written by the
General Agricultural Agent of the
C.P.R. Read It

A few years ago the Canadian cattle industry fell between the Fordney tariff of the United States and the British embargo, and livestock raisers in the Dominion fell upon evil times. The steady depression of the Canadian cattle industry was predicted and had all the appearance of likelihood. With the removal of the British embargo Canadian shippers found profitable outlook in the English markets and for some time that country was responsible for the greater proportion of Canadian cattle marketings. Recently rising prices in the United States made it more profitable to ship to that country in spite of the tariff and Canadian cattle have been moving across the border in increasing number. This year there have been no shipments to England on account of an inability to meet price while in the first seven months of the year some 45,000 head were exported to the United States. With a general demand at the present time for Canadian cattle it has not taken long to revolutionize the status of the industry in Canada and place cattle raisers in a better position than they have known for some time.

"Everything points to a very active business in the cattle line in Canada just now," states one of Western Canada's foremost cattle breeders. "Prices are higher now than ever since the Great War. The United States have millions less cattle than they normally have and there is consequently a larger demand for Canadian animals. And according to a statement issued by the Bureau of Animal Husbandry at Washington, prices will continue to rise for the next few years. I prophesy a bright future for the cattle business in Canada." Another equally prominent livestock man, on his return from England, said: "World markets are clamoring for Canadian cattle and the cattle export industry is bound to improve. The British and United States markets are strong in the field for Canadian beef and now Portugal has an agent in Canada trying to secure a shipment of 8,000 head of steers, so far without success."

Testimony to the quality of Canadian rangebred stock was given in November when the highest price of the year for range cattle on the Chicago market was paid for a consignment of eighteen Alberta steers which averaged 1,403 pounds and sold at \$15.50 per cwt. This is equal to the record high mark of the Chicago stockyards history made in 1920. The entire consignment consisted of nineteen carloads which brought \$53,000, and a tariff of \$10,000, or an average of two cents per pound, was paid to get the animals across the border to the Chicago market.

There have been many indications of an appreciation of the attractions Western Canada offers in the cattle industry at the present time. Buyers from the United States endeavoring to pick up Canadian animals for shipment have been numerous. Many ranches, some of them outstanding in the area for their size, have changed hands in the past summer, while many smaller cattle enterprises have been launched in the territory. There is universal agreement that the time is propitious for embarking on the cattle business, and the future will be decidedly profitable for those coming to engage in the pursuit.

Cattle in Canada in 1926 numbered 9,160,150 as compared with 9,307,298 in the previous year. In 1916 there were only 6,598,707 head in Canada, but they rapidly increased during the war years, the figure standing at over 10,000,000 in 1918 and 1919. In 1921, when the United States tariff made itself felt, there were 10,206,205 head, so that the situation has made a fairly rapid recovery. Sales at Canadian stockyards during the first nine months of 1927 totalled 477,679 as compared with 556,901 in the previous corresponding period, and animals billed through totalled 70,277 as against 199,553 in 1926.

One possible indirect effect of the troublesome times through which the cattle industry has been the improvement and facilitating of marketing conditions in Western Canada. Each of the three prairie provinces formed a livestock pool which has for some time been functioning very efficiently. Recently a further improvement was effected when arrangements were concluded for the marketing of all the livestock in the three western provinces by a central, co-ordinating agency known as the Central Livestock Co-operative, Limited, which is to have control and direction of the central marketing policy. This is the first concerted endeavor to bring about organized marketing of livestock through a single channel and is expected to result in material profits to the farmers of Western Canada.

The favorable position in which ranchers and livestock raisers find themselves as a result of the cattle situation is duplicated by the comfortable circumstances in which grain growers are placed as a result of another heavy and profitable crop. The mixed farmer is benefiting from both directions, and his prospect is bright. Authoritative opinion agrees that the condition of the Canadian farmer was never better and the prospect of increasing demand for Canadian farm products promises the maintenance of this position. The time could scarcely be a more auspicious one for new settlement.

ADVICE OF A NURSE

A Burnt Child and His Treatment
By a Red Cross Nurse

Mothers must exercise unceasing vigilance over their children in connection with fire risks. Remember that the little ones do not appreciate the danger they are in when they try to play with inflammable materials. Hence it is up to every parent to use common sense precautions daily as follows:

Keep all matches in a safe place out of your child's reach. Never let him play with them, or with fire at any time, nor carry lighted lamps around the house or candles, nor play near an open unguarded fire or oil stove.

Most fires are preventable. Clothing cleaned by gasoline near an open fire is exceedingly dangerous. Lamps on shelves too near the window curtains or draperies have caused many tragedies. Beware of over heating the stove with the risk of red hot pipes and the wall or ceiling catching fire.

When a fire starts, close doors and windows and thus prevent draughts which would fan the flames, and set all ablaze in a moment. Often a fire may be smothered at once with a rug or blanket or heavy coat. Should anyone catch fire lay him at once on the floor, and smother fire with anything available, as tablecloth, curtains, or anything heavy. Roll patient slowly over, beating out flames with hands or towels or sack.

Burns are caused by dry heat and mist heat too, hence see that children are never left alone near boiling water. Shock is often severe and will end in death if not cared for. Get the doctor if at all possible. Treat shock as follows: Lay your patient flat with head slightly lower than body. Cover with blanket put hot water bottles well covered to feet, and between thighs and under the arms. Give one teaspoonful of aromatic spirits of ammonia in one half glass hot water. No alcohol to be given. For the burns make thick paste of baking soda and cold water, bandage lightly to keep in place, olive oil, carbolized vaseline, caron oil or any grease may be used, but baking soda gives the quickest comfort. Do not put cotton batting next the burn. Cut the clothing away never pull it.

Send to Red Cross Society, Civic Block, Edmonton for free book on first aid in the home.

SEEKS INFORMATION

A request has been received by this paper from the Red Cross Society, 408 Civic Building, Edmonton, that we obtain for them the names and postal addresses of those in our district who have the misfortune to be blind. The Statistics thus obtained are for the use of the Society of the Blind, who hope to get in touch with all blind people in the province. We shall be very glad to co-operate with both Red Cross and the Society for the Blind, and trust that our readers will make an effort to do their part also. The Red Cross asks that anyone knowing the name of a blind man, woman or child living in Alberta (not ex-soldiers) should report the same to their headquarters at 408 Civic Building, Edmonton. Kindly assist the efforts of these Societies by giving the matter your immediate attention, and it is hoped that all names and addresses will be written in a clear handwriting, preferably in printed letters.

53,000 new colonists were added to Canada's population in 1927, through the Department of Colonization and development C.P.R. The majority were secured from the British Isles. The number of families moving in from the United States shows a stimulated interest on the part of the people of that country. In 1927 Canadian Colonization Assn., headquarters Winnipeg, settled 626 of 3443 families on 162,928 acres, these transactions involving a sum of \$6,000,000.

"WE WELD"

WINS MORE PUBLICITY

The Prince of Wales' ranch at Pekisko, wins still more publicity for itself, and incidentally for this district. The T. Eaton Co., Ltd., has recently sent artists to the E.P. ranch, gathering material for a large model of the property. It is to be exhibited at Winnipeg. Another model is at present being made in London, England, for the British Industrial Fair next month. This model will show the ranch house, with the Rocky Mountains in the background, and in the garden will be displayed peonies, planted by the Prince himself. The Prince will be shown inspecting his stock. Of animals there will be the famous stallion "Will Somers," the Daxmoor pony Tiny, Shorthorns and Hampshire sheep. This model will be made from photographs, supplied, it is said by the Prince. After being used at the British Industries Fair, it will be placed permanently in the exhibition gallery of the Imperial Institute, South Kensington.

ROAD CONSTRUCTION

If the mild weather holds, the Alberta highway department, may earn \$100,000 from the Dominion Government, under the Canada Highways Act. This Act provides that the Dominion Government will pay forty per cent. of the cost of approved road construction. But the act closes automatically on March 31st, 1928, and official information states that after that date there will be no highway assistance. In October, there was \$100,000 for Alberta to earn, and at that date all work was shut down by the rush of winter. However the chinook has revived hope in the hearts of the highway commissioners and work has been re-commenced on the Calgary-Macleod and Cardston-Waterton roads. The sub-grade north an south of Claresholm will shortly be in condition for the first course of gravel. And if the mild weather holds, the department may have fulfilled the entire agreement with Dominion Government by March 31st.

The Manitoba Co-operative system of marketing, embraces, egg and poultry pools, dairy products, honey and wool. All these enterprises have flourished under the organized system and the standard of article improved.

BROOKS CASE SETTLED

On December 30th Mr. Justice Middleton in Toronto granted an order approving an agreement settling the various disputes in connection with the Brooks' Steam Motors Ltd. which have recently been before the courts. Six actions against the company are to be discontinued. The winding up applications are postponed providing this agreement is ratified at a meeting of the shareholders to be called immediately. O. J. Brooks is to pay \$150,000 into the company and is to receive a stipulated amount of stock which he is not to dispose of until the Steam Bus prove a commercial success. The order containing the terms of settlement in the Brooks' Steam Motor Co. litigation was signed by all parties concerned at Osage Hall, on January 5. An immediate payment of \$50,000 is now due from O. J. Brooks, president of the company the first of three instalments of this amount.

Alberta during the past week has entertained a distinguished visitor in the person of Right Honourable L. C. M. S. Amery, Secretary of States for the Dominion, with Mrs. Amery and party, is making a tour of the Empire. Mr. Amery addressed a luncheon of civic clubs in Edmonton on Friday and was entertained at dinner by the Provincial Government on Friday evening. In the course of his visit to Calgary on Saturday, Colonel Amery spoke to the Canadian Club and in the evening was the guest of the Ranchmen's Club.

Parents are requested to examine carefully the information contained in the report forms which have been distributed relative to the mark of each student. Where progress is evidently unsatisfactory an effort should be made to ascertain the reason therefor. The success or failure of many students will be determined by the progress made until Easter. If additional information is desired in any case, parents are urged to consult the principal and staff.

Apparently some misunderstanding exists with regard to the courses of study offered. Space will not permit a detailed discussion of options and requirements etc., but we desire to direct attention of parents to a few important points. Students at the Vulcan High School are offered the privilege of selecting courses leading to either Normal entrance or junior matriculation standing, or both, as both Latin and French are being taught. For either of these a minimum of twenty-one subjects is required, while if a student desires the combined standing he will require at least twenty-three units. While it is customary for good students to complete the twenty-one units in the three years, there is no reason why a student wishing to proceed at a slower rate may not do so. Those taking a combined course for both junior matriculation and Normal entrance standing are advised to spread the work over four years and there are frequent cases where circumstances make it advisable to spread twenty-one units over four years.

ITEMS OF INTEREST

J. C. F. Bowen, K.C., city solicitor of Edmonton, who is dean of the Alberta Bar and one of the leading legal authorities in the province, was elected President of the Alberta Law Society at a recent meeting of the benchers in Calgary. In this position he succeeds Dr. Conybeare of Lethbridge and Dr. Muir of Calgary.

Alberta's agricultural products in the year 1927 reached a total value of \$338,161,458, an average per farm of \$4,385, it was announced by Hon. George Hoadley in addressing the annual dinner of the Alberta Provincial Livestock Breeders' Association in Edmonton on Wednesday. In 1926 the total value of farm products in the province was \$264,000,000 and in 1906 farm products were valued at \$51,884,000.

More than \$500,000 worth of Alberta cattle were exported to the United States between July 1st and November 30th, 1927, according to the report of S. C. Reat, American Consul at Calgary. The shipments include some 12,000 head comprising stockers, feeders and butcher cattle. According to Mr. Reat, American markets at the present time are very inviting to stockmen in Western Canada and shipments have shown greater activity during the past six months than in any similar period since the imposition of the Fordney-McCumber tariff in 1922.

HARVEY NEWS

Mr. John A. Smith left this week on a trip to Hoquiam, Wash., and other coast cities.

On the night of January 6th, about seventy people of the community assembled for a dancing party at the home of Harley Dowling and it was a real joyous event. Supper was served by the ladies, and the music was furnished by Messrs. Bird, Brown bill, Smith and Plum.

The box social and dance at Harvey school on Friday night, under the auspices of the Good Deeds Women's Institute, was an enjoyable and exceptionally successful event. The many present had a most pleasant time. The gross proceeds were \$69.25 and the expenses light. The ladies desire to thank all who in any way made a contribution to this success. Everybody is hoping that there will soon be another dance at Harvey.

Runaways are not numerous in these days, but Harvey has furnished the exception. Mr. Charley Smith, accompanied by Mrs. Smith and little daughter, was driving a spirited pair of horses attached to a light sleigh, and when the team was being urged to pass a bad hole in the road, they bolted and got away, upset the sleigh rolled to occupants out along the way and did not stop until they were caught in town. No one was in the least injured, and the damage consisted of a broken sleigh tongue and the scrambling of a quantity of eggs that were being brought to town for sale. The incident is sufficient to direct the attention of municipal authorities to a mighty bad spot in the road.

ITEMS OF INTEREST

The Border Canning Co. of New Westminster has completed the erection of a canning factory on a site recently secured in the north-east portion of Edmonton, and machinery is being installed. The company has leased 800 acres of land for the growing of vegetables.

Homestead filings in Western Canada in the first eleven months of 1927 totalled 5,959, as compared with 5,592 in the corresponding period of 1926. Of the filings in the past year 673 were in Manitoba, 2,598 in Saskatchewan, 2,581 in Alberta and 107 in British Columbia.

The growing importance of the fur farming industry in Alberta is indicated by the importation during the past week of a shipment of 27 pairs of silver foxes from ranches in the Maritime Provinces. These animals valued at \$25,000, were consigned to the National Silver Fox Club at Morinville, a newly organized firm which plans to engage in fox breeding on a large scale.

The Rosedale Dairy Company of New York is invading Canadian territory and buying up cheese factories here with the purpose of making soft cheese for the Jewish trade of New York and its environs. The firm started with a factory on Wolfe Island and has recently bought two more cheese plants at Pine Hill and Woodburn, in the township of Pittsburgh just east of Kingston. The combined capacity will be 1,000 pounds of cheese per day.

Building contracts awarded in Alberta during 1927 total some \$7,507,300 according to a construction summary recently issued by the MacLean Building Reports Limited. Included in the statement are 508 residential buildings valued at \$1,891,700; 332 business buildings valued at \$3,987,200; 18 industrial buildings valued at \$356,100; and 34 engineering projects with a valuation of \$1,272,300. The report shows a larger volume of new construction throughout Canada in 1927 than in any year since 1912.

Abolition of the office of Assistant Superintendent, the amalgamation of headquarters and "A" (Edmonton) division, and the creation of a Criminal Investigation Branch, are announced in connection with a re-adjustment of the personnel of the staff of the Alberta Provincial Police Force. Under the new arrangement, Assistant Superintendent J. D. Nicholson, whose position is being abolished, has resigned and Inspector W. F. W. Hancock of the Peace River District takes command of "A" Division of Edmonton, replacing Inspector J. S. Piper who will become head of the newly created Criminal Investigation Branch. The proposed changes, it is estimated, will effect a considerable economy annually and increase the efficiency of the force.

NOTICE To Creditors and Claimants

BERRYWATER NEWS

On Saturday, January 7th, the annual meeting of the Berrywater U.F.W.A. was held at the home of Mrs. H. C. Douglass and was well attended. Mrs. N. S. Campbell, presiding for the regular part of the meeting. The meeting was opened by singing Equal Rights for All. The minutes of the last regular meeting were then read and adopted also correspondence. After the business was dispensed with the nominations for delegate to attend the annual U.F.A. convention in Calgary were then in order. Mrs. Mills was elected delegate. The regular meeting then being over, Mrs. Oldfield was elected chairman for the election of officers. Mrs. H.C. Douglass was elected president, Mrs. Oldfield vice president, Mrs. L. A. Douglass secretary. The directors were Mrs. Sinclair, Mrs. Amey and Mrs. N. S. Campbell. The convenors were then elected. Miss M. Coy assisted by Mrs. Blanchard and Mrs. McLean for the social committee; Mrs. Oldfield as convenor of education; Mrs. F. Mensinger convenor of peace and arbitration; Mrs. N. S. Campbell for laws concerning woman, and to keep the local posted on the happenings during sessions at Ottawa; Mrs. D. B. Sims convenor of immigration, and Mrs. B. Mensinger convenor of health; Mrs. Clifford Love as librarian. A vote of thanks was then tendered the retiring president and secretary, Mrs. N. S. Campbell and Mrs. McLean for the able way in which they had acted during their term of office. The meeting was then adjourned and before the dainty lunch was served by the hostess, another item was forthcoming in the feature of a shower of many handsome and useful gifts from members of the local to Mrs. D. C. Carr which were greatly appreciated by the recipient.

ENSIGN NEWS

Quite a few sleighs bringing in wheat were overturned by the snow drifts softening up. Glad to hear not much grain lost.

Sorry to hear that Mrs. W. Brown is very sick. Let us hope to have better news. Mr. W. Brown left on a visit to join her at Medicine Hat, where she is at present on a visit with Mrs. H. McKay.

The annual meeting of the Ensign school district met at school January 7th to receive their financial report for the year and to nominate one trustee for a three year term. Mr. E. Harris was elected by acclamation.

On Friday 13th, the Ladies' Aid gave a social evening at Ensign school to the families of the members. An enjoyable evening was spent, one special feature being put over by Mrs. A. Meyers, Chapman Ferguson, Harris, Soutgate and Mrs. V. McConnell, in "Colored Mammy's" kitchen orchestra.

The Rev. R. Harden delivered an interesting sermon Sunday afternoon, January 15 on "The Spiritual Dove." The service was well attended, also Sunday school. New officers were elected as follows: Mrs. A. Smith, president being renominated, also Mrs. J. Rouke as superintendent; Mr. Howard Smith secretary-treasurer of Sunday school; Mr. A. Smith secretary-treasurer of church, and Miss Lillian Dennis, organist. Services are held every Sunday afternoon at Ensign school. School at 2:30 and church 3 p.m. All are cordially invited.
